

Fresh Water from our range of point-of-use water filtration products **hydrates your body and mind effectively.** Ideal for household use, our products **provide great-tasting, clean and high-quality filtered water** for drinking, cooking, food preparation and personal hygiene needs.

3 Stage Filtration: Provides fresh water, no boiling required

1st stage : Sediment Filtration

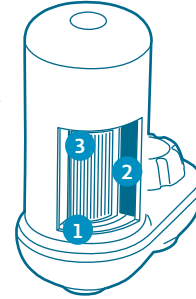

- Reduces rust and removes sediment and particulates

2nd stage : Granular Activated Carbon Filtration

- Reduces chlorine and removes bad odour
- Prevents bacteria growth inside the filter cartridge

3rd stage : Ultrafiltration Membrane

- Hyflux proprietary membrane technology
- Hollow fibre membrane with 0.015 micron.
- Removes 99.9999% (>6Log) of bacteria and cryptosporidium
- Reduces turbidity

Gurgle Tap Filter F38 is tested in accordance to:

- US ANSI/NSF Standard 42 for Reduction of Chlorine, Taste and Odor
- APHA 9222D and APHA9222G using E.Coli Bacteria
- WHO Guidelines For Drinking Water, Edition 2006

Product Specifications

Dimensions (mm) :	125(W) x 65(D) x 145(H)
Weight :	450g
Membrane Pore Size :	0.015 micron (Ultrafiltration)
Filtration Flow Rate :	800 – 1200 ml/min [Pressure: 1 bar]*
Filtration Capacity :	1000 Litres*
Working Pressure (min /max) :	1 bar/ 4 bar (100kPa/ 400kPa)
Filter Cartridge Model:	FC38

*Depends on in-coming water quality

"Do not use with water that is microbiologically unsafe or of unknown quality without carrying out adequate disinfection before or after the filtering process. Individuals requiring water of special microbiological purity should follow the advice of their doctor or local health officials regarding the use and consumption of their tap water and water filtered by Gurgle F38 Tap Filter."

Fresh Water

It's just different!

Fresh water on demand

Our award-winning filtration product, **Gürgle Tap Filter F38** has the smallest membrane pore size for a tap filter. It offers you fresh and great-tasting water at the turn of a tap. Its 3 stage filtration will do for you what boiling water cannot. It filters microscopic particulates and removes turbidity yet allows essential minerals to be retained, making it a healthy choice all year round.

Saves electricity
and reduces power bills as boiling is not required

Superior freshly filtered water for drinking and food preparation needs

Healthy water
with beneficial minerals retained

Saves water usage
with controlled water flow

Easy Installation
– Fits most taps (diameter less than 25mm or 1 inch). No plumbing required.

99.9999% bacteria-free, reduced virus and odourless water, thanks to Hyflux proprietary membrane technology

Features

- Smallest membrane pore size (0.015 micron) for tap filter – ultrafiltration
- 3 modes to suit your needs:
Pure  Tap  Shower 
-  Air Release Button – For better water flow and longer cartridge lifespan
